Forecast for Sunday 30 Oct 2022

Weather: Some drier and brighter weather on Sunday morning but showers developing and moving across the area, some showers may be heavy with a risk of thunder and showers may band together at times to give a longer spell of rain. Showers mostly dying out in the evening.

Chance of cloud-free hill tops above 600m: 70%, low cloud associated with passing showers.

Low cloud and visibility: Good visibility in general but any heavier showers will cause a temporary dip in visibility and a thunderstorm will reduce visibility becoming very poor for a time. Scattered cloud layers above 500m are likely at times especially around western hills and in showery conditions.
